Michelle Montenegro, Associate Planner, provided a verbal presentation and background information, as presented in the staff report dated Thursday, October 16, 2025.

She reiterated staff is looking for feedback and comments. There will be no official motion or vote for this item.

She provided background information and stated the city's 6th Cycle Housing Element (2021-2029) was adopted by the City Council in February 2023 and subsequently certified by the California Department of Housing and Community Development (HCD) in April 2023. The Housing Element is one of eight state-required components of every City's General Plan.

She detailed the current Regional Housing Needs Assessment (RHNA) numbers for West Hollywood, stating that the city is not currently on track to meet 2029 unit production goals in the RHNA in any income category (including above moderate-income), the city is experiencing the greatest need for deed-restricted moderate- and lower-income units.

She provided an overview of the Inclusionary Housing Ordinance (IHO) and State Density Bonus Law (SDBL), and stated the local IHO affordable income/rents do not align with SDBL and (HCD).

She spoke regarding policy options for 11+ unit rental projects. Based on the presented findings, staff recommends moving forward with Option D for 11+ unit projects. For rental projects, Option D maintains the existing 20% inclusionary requirement but spreads the affordable units across three income categories: Extremely Low-Income, Very Low-Income, and Low-Income, retaining the "must build" requirement currently in the IHO for 11+ unit projects (with no option or requirement for an in-lieu fee), and creates a local bonus structure.

She detailed policy options for small projects (2-10 units) and other policy options; including specialized housing types and IHO in mixed-use projects, implications to the IHO update, and timelines.
